

GROUP PROPOSAL:

The goal of this assignment is to have your group make a **proposal** to the class for a class activity. You will need to:

1. Research activities based on interest
2. Make sure all considerations have been made (see below)
3. Sell your idea to the group (presentation)

What you need to consider:

- Location (can we get there and back and participate all in 2.5hrs)
- Transportation
- Risk factors (minimal risk activities only)
- Cost, as noted above
- Age restrictions
- Ability of all involved (everyone needs to be able to participate)
- Make sure this activity is available during out class (Monday afternoon or Thursday morning)
- Can you book it? You may need to call and get some of this information 😊

Presentation:

SEE RUBRIC for collaboration and presentation:

*We would like you to ensure that each group member speaks and we'll need to see or hear about the considerations noted above, and then sell us on it!

- A visual presentation (you choose, but some options are noted below)
 - ✓ Prezi
 - ✓ Poster
 - ✓ Ppt
 - ✓ Brochure
 - ✓ Newsletter (handout)
 - ✓ Video
